Subject: Important Health Notification – Please Inform School of Infectious Illnesses

Dear Parents, Carers and Staff,

We are writing to kindly remind everyone of the importance of informing the school if your child, or any member of your household, is diagnosed with or suspected to have an infectious illness.

We currently have a member of staff who is expecting a baby, and it is particularly important that we work together to minimise any potential risks to her and to the wider school community. Certain infections can pose additional risks during pregnancy, even if symptoms appear mild in others.

If your child develops, or if anyone in your household is diagnosed with, an infectious condition (for example, chickenpox, slapped cheek, measles, or similar illnesses), please inform the school office as soon as possible. This allows us to take appropriate advice and, where necessary, notify individuals who may be at increased risk.

Please be assured that all information will be handled sensitively and confidentially. This request is purely to support the health, safety, and wellbeing of our whole school community.

We appreciate your cooperation and support in helping us maintain a safe environment for everyone.

If you have any questions, please do not hesitate to contact the school office.

Kind regards,
The School Office
